CHR.100-25 100X100 h x 25 cm
39x39x9 in

CHR.100-17 100X100 h x 17 cm
39x39x6 in

Una combinación de materiales extraordinarios para una familia de mesas auxiliares que no son redondas ni cuadradas, sino algo lobuladas y sobre todo majestuosas.

La colección Chrysler está disponible con tapas en mármol, cristal lacado, madera, piel y otros materiales y con remate de pletina plana en acero. Además, posee un perímetro en acero inoxidable color bronce, latón o negro.

Chrysler está elaborada con:

- Tableros de Densidad Media (DM) de diferentes grosores y densidades. Elaborados en bajo contenido de formaldehído (E1).
- Estructura metálica de tubo de hierro acorde a la normativa de fabricación DIN 2395.
- Las piezas lacadas (estructuras, piezas de DM, etc.) se tratan con productos químicos acordes con la Normativa Europea Medioambiental.
- Los herrajes y componentes de ajuste y unión, cumplen con las diferentes normativas DIN y UNE.

Acabados:

Tapa de cristal lacado color negro, banda perimetral de acero color, base inferior en acabado laca micro-texturada.
Tapa, en cristal lacado color negro o Neolith Negra Marquina. Banda perimetral en acabado, acero color oro, bronce o negro.
Base, en acabado laca micro-texturada.

Dimensiones (Standard):

- CHR.70-35: 70x 70 h35cm
- CHR.100-25: 100x100 h25cm
- CHR.100-17: 100x100 h17cm

This series combines extraordinary materials in a family of auxiliary tables that are neither round nor square; they have one side that is somewhat elongated or lop-sided, but they are nonetheless discretely majestic.

The Chrysler collection is available in marble tops as well as in lacquered glass, wood, leather and other materials; all are enhanced by attractive metallic trim. An additional stainless-steel perimeter comes in the following chromatic range: bronze, tin or black.

Chrysler is built with:

- Media-particle density (DM) of different thicknesses and densities. Produced in low formaldehyde content (E1).
- Iron structure made according to DIN 2395 normative.
- All chemical components in the polishing process (base, dyeing and finishing) meet the values accepted by the European environmental legislation.
- Metal parts and components used to fit or join the base, meet different standards DIN and UNE normative.
- Technical leather upholstery: 100% coagulated microfiber polyamide technical leather, which complies with REACH regulation.

Finishes:

Black lacquered glass top covered with a colored steel stripe.
Base lacquered in micro-texturized finish.
Top, in black lacquered glass or Neolith Marquina Black. Perimetral stripe, black, gold or bronze colored steel. Base, in microtexturized lacquer finish.

Dimensions (Standard):

- CHR.70-35: 70x 70 h35cm
- CHR.100-25: 100x100 h25cm
- CHR.100-17: 100x100 h17cm
